PROFESSIONAL SUMMARY

Finance and accounting leader with 16+ years across manufacturing, construction and project-based businesses in Saudi Arabia and Egypt. Leads budget preparation, approval and execution with departmental accountability; financial reporting, manufacturing costing, cash flow and internal controls. Prepared the 2024 and 2025 financial statements and managed external audit requirements through issuance. Leads a four-person team and translates analysis into product, pricing and collection decisions within delegated authority.

CORE EXPERTISE

IFRS & Management Reporting | Budget Ownership & Variance Analysis | Manufacturing Costing & Product Profitability | Cash Flow & Working Capital | Financial Close & Reconciliations | Internal Controls | VAT, Zakat & ZATCA Compliance | External Audit Coordination | ERP Implementation | Team Leadership

Systems: Odoo, Microsoft Dynamics AX, Oracle, QuickBooks, Advanced Excel

PROFESSIONAL EXPERIENCE

Chief Accountant (Head of Financial Accounting)

Hot Plate Factory | Madinah, Saudi Arabia | Jun 2024 - Present

- Lead budget preparation, approval and execution, coordinating realistic assumptions with sales, production and other department heads; obtain their sign-off and accountability for departmental figures. Analyze variances and take corrective operating decisions within delegated authority.
- Prepared the 2024 and 2025 financial statements and notes; managed external auditor requirements, correspondence and responses through issuance. Lead month-end and year-end close and IFRS-based financial and management reporting.
- Lead four staff across general accounting, receivables, inventory, and cash and banking. Assign close responsibilities and approve entries and reconciliations; escalate exceptions to the Finance Director. Discuss sales and aging almost daily and cost and production performance in monthly management meetings.
- Established product-level costing and investigated inventory valuation and cost-of-sales discrepancies using independent Excel calculations. Sales price-and-volume analysis led to a mix review and my recommendation to suspend a low-profitability item pending cost correction; it returned after a mold redesign. A second product was repriced. New-mold investment required owner approval.
- Led a nine-month Odoo implementation connecting purchasing, inventory, manufacturing, sales and accounting. Owned requirements, partner negotiation and coordination, financial and operational configuration, and data migration with specialist partner support. Recreated a full year of transactions in parallel, reaching same-day entry across legacy and new systems.
- Recommended and followed a mold redesign with technical specialists. Reported scrap per operating hour fell 70%; internal before/after comparisons indicated approximately 39% lower unit cost, including changes in product weight and scrap.
- Manage VAT, Zakat and ZATCA compliance and strengthen policies and controls over AR/AP, banks, inventory, fixed assets and manufacturing costs.

PROFESSIONAL EXPERIENCE - CONTINUED

Finance Manager

Nejmet Elbayan for Construction | Abha, Saudi Arabia | Aug 2022 - May 2024

- Managed project accounting, budgets, cost estimates, cost monitoring, working capital and financial reporting in coordination with project teams.
- Introduced a close calendar and checklist with task owners. Reduced close-to-report-submission time from 10 to 5 to 3 working days across three consecutive monthly closes. Reports went to the Finance Director for review on day 3; exceptional cycles required up to 5 working days.
- Prepared monthly cash forecasts covering 45-90 days. Identified a funding gap around the first quarterly loan installment and other commitments, rebuilt the cash budget and negotiated early settlement within delegated authority. Funds were available 25 days before the requirement.
- Negotiated a 2% settlement discount on overdue customer receivables within delegated authority. The customer paid on the day of negotiation; funds appeared in the bank account the following day.
- Monitored receivable aging and collection quality, supplier and subcontractor payments, and project variances; implemented cost controls to support management decisions and profitability.

Chief Accountant

Smile Factory | Mansoura, Egypt | Jan 2018 - Jun 2022

- Led budgeting, forecasting, cost-reduction initiatives, financial analysis and weekly, monthly and quarterly reporting to senior management.
- Managed balance sheet reconciliations, capital expenditure monitoring, production and inventory reporting, and financial policies and controls. Served as a key contact for system audits and ERP financial processes.

Senior Accountant

Kayan Alrasheed Interior Design & Furniture | Dammam, Saudi Arabia | Jun 2014 - Apr 2017

- Managed project accounting, AP/AR, supplier invoices, customer collections and reconciliations for projects and showroom operations.
- Prepared project cost sheets for materials, labor, installation and subcontractors; monitored budgets, inventory and purchases. Produced monthly financial reports, cash flow updates and project profitability analyses.

Cost & Managerial Accountant

Al Shamry Plastic Factory | Riyadh, Saudi Arabia | May 2010 - Apr 2014

- Prepared financial statements, budgets and management reports; reviewed and approved records and reconciliations before submission to management. Managed cash flow, collections and bank relationships, and supported controls, risk assessment, administration and governmental compliance.

System Analyst & Accounting Trainer

New Vision Integrated Systems (Yusuf Abdullah Juffali Group) | Riyadh, Saudi Arabia | Dec 2009 - Apr 2010

- Trained accountants on general ledger, inventory and fixed asset modules; configured accounting systems and supported reporting, error resolution, year-end close and data validation.

EDUCATION & PROFESSIONAL DEVELOPMENT

CMA studies - Institute of Management Accountants (IMA): Part 1 passed; Part 2 in progress, with completion planned for early 2027. Certification not yet complete.

Bachelor of Commerce (Accounting) - Mansoura University, Egypt | 2009
